

TUBERCULOSIS awareness at Amandelbult Hospital

PLATINUM
HEALTH

World Tuberculosis (TB) Day was commemorated on the 24th of March 2024.

Platinum Health (PH) prides itself on promoting a healthy and safe space for its members and therefore our Wellness team at Amandelbult Hospital provided TB screening to its members to mark the day. As part of the day's proceedings, Dr Thendo Mawela addressed members and reiterated the importance for them to follow their healthcare worker's instructions and complete their TB treatment.

305 members were screened for TB.
